Re: Angel Flight mission to Vernon, TX

Dear David,

We cannot thank you enough for taking time off to fly Chad and myself to Vernon, TX. On a typical trip to Vernon, I am in the car at least a total of 6 hours, most of the times more if there is any traffic issues between Dallas and Vernon. If I drove my own car, I could expect to put 400 at least miles on my car in one day and buy at least a tank and a half of gas. If I rented a car for the drive, it would add an additional 2 hours to my day, picking up the car and bringing it back, not to mention the cost of the car rental and gas for that car.

Also impacted was the quality of my visit with my CASA child. I was not stressed or tired on this visit as I would have been after driving alone for hours. I was able to spend time with him and staff, as well as getting updates on how he was doing. When staff asked me if I wanted to stay for an important staffing for this child, I was able to say yes, without worrying if doing so was going to have me return to Dallas even later. That was huge. It let the child know I thought he was important enough to stay and participate.

The collaboration between Angel Flights and CASA for this child was priceless. Thank you again for all you have done to help CASA Advocate for our children, especially for those who are in far off places.

Sincerely,

Rebecca Ten Doeschate
